

NELSON AT HOME ADVENTURES

RUBBER EGGS!

You will need:

Vinegar

1 Egg

Food Coloring

1 small Maison Jar

How:

- Gently place the egg at the bottom of the jar.
- Cover with vinegar.
- Add 3-4 drops of coloring.
- Wait 4 days...
- After 4 days carefully remove your egg from the jar. You will notice the egg has turned into bouncy/ rubbery texture, almost like a bouncy ball!

note It is best to play with the egg in a kitchen sink or bowl as it will break if you bounce it too hard.

Have fun, stay safe!
