

## NOTICE TO PUBLIC:

### ***Notice of beach and boat launch closures on both sides of the lake at the orange bridge.***

Nelson Hydro is advising the public that the boat launches and surrounding areas on both sides of the lake at the orange bridge will be closed to the public for approximately one month this spring. Nelson Hydro is installing new high voltage power line marine cables that cross the lake adjacent to the orange bridge.

*“This new line is not just a benefit to North Shore customers, but to all Nelson Hydro customers. With this new high voltage marine cable crossing, Nelson Hydro is laying the foundations needed to power Nelson Hydro customers well into the future”* Dan Geissler, Operations Manager with Nelson Hydro.

Visit the City’s website at [www.nelson.ca](http://www.nelson.ca) has a detailed map of the affected areas.

#### When will this work be done?

- Commencement Date: March 12 , 2019
- Completion date: April 18, 2019 (tentative)

#### Why is it important for you, our customer?

- The existing cable has failed twice and is past its life expectancy.
- This new cable lifespan is approximately 45 years.
- This new cable is better because of its increased power carrying capacity.
- This new cable will improve North Shore reliability and City power supply redundancy.
- This has been sized large enough to manage load, not just now, but 25 years from now.

#### How will the beaches and boat launches be affected?

- Construction fencing will close off both of the areas by the boat launches.
- Boats that are anchored in front of the boat launches or stored on the beaches will have to be relocated.
- There will be expansive digging at both sites.
- While barging material across the lake, boaters must stay clear.
