

When needed....

# SHOP SAFE & SHOP LOCAL

What you can do to help protect yourself and others while you shop.

Sanitize your hands!  
Before & after you shop.

Unless you have no other option, leave your family at home. Use online or phone in orders if possible.

Only shop for necessities. **Stay home if you are sick.** If you have recently returned from travelling, have someone shop for you.

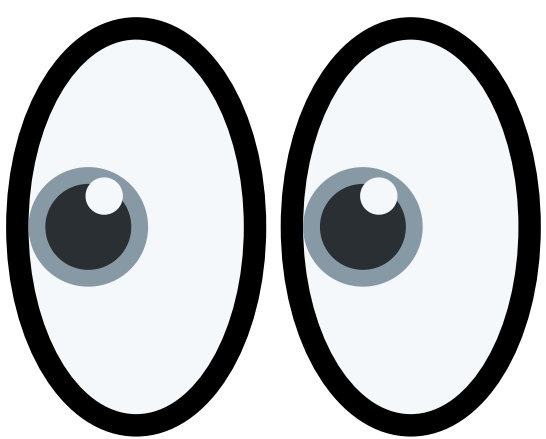

Leave your reusable bags at home. Clean store provided bags or boxes are best for now.

Check in with neighbours and family. Shop for them when needed.

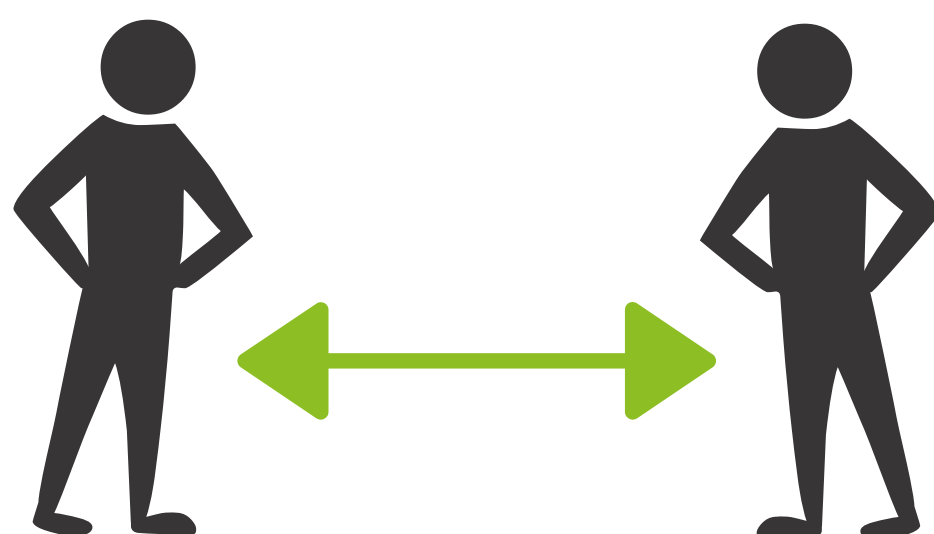

Use sanitized baskets and carts. Buy normal quantities for what you need for a week or so.

Shop with your eyes first. Do not touch anything unless you are going to buy it.

Plan to pay with debit or credit. Many stores are not accepting cash at this time.

Maintain physical distancing (2 metres) between yourself, staff and other shoppers.

THANK YOU for your understanding and cooperation. We are in this together!
