### Net Metering Interconnection Agreement

#### Signing of This Document

- 1) The signing of this document by the **customer** signifies that the customer:
  - (i) Has read all rules and regulations stated by Nelson Hydro in their document 'Interconnection Requirements for Small Net Metering Distributed Generators' and is willing to comply with the rules, regulations and terms of use outlined in this document.
  - (ii) Certifies that the facility to be interconnected has been installed to his/her satisfaction, and that the customer has been given any system warranty information, operating manuals, as well as instructions on the safe operation of the facility.
  - (iii) Will indemnify Nelson Hydro for any damages to the facility or any persons working on/near the facility unless said damage was caused solely by the negligence of Nelson Hydro.
  
- 2) The signing of this document, on the part of the **contractor**, signifies that the contractor:
  - (i) Certifies that the system has been installed in accordance with the current version of IEEE 1547, "Standard for Interconnection and Interoperability of Distributed Energy Resources and Associated Electric Power Systems Interfaces" (if applicable).
  - (ii) Certifies that the system has been installed in accordance with Nelson Hydro's 'Interconnection Requirements for Small Net Metering Distributed Generators'
  - (iii) Certifies that the installation of the system has been inspected and approved by Technical Safety BC and conforms with all local building and electrical codes.
  - (iv) Certifies that the system is compliant with all local electrical codes as well as sections 64 (Renewable Energy Systems) and 84 (Interconnection of Electric Power Production Sources) of the Canadian Electrical Code.

- 3) The signing of this document, on the part of **Nelson Hydro**, signifies that the customer's facility has been approved for interconnection, and that interconnection will begin shortly after this document is approved by Nelson Hydro.
