

# The City of Nelson WATER QUALITY ADVISORY

**This Water Quality Advisory is effective May 03 2023 until further notice**

The Interior Health Authority in consultation with The City of Nelson is issuing a **water quality advisory** for the water distribution system within the City boundary. Due to current spring run-off conditions, ongoing testing indicates an increased level of turbidity or suspended matter in the drinking water supply.

**This water is consumable** however, The Interior Health Authority recommends that people with compromised immune systems or anyone seeking additional protection, should take pre-cautions when drinking, washing fruits & vegetables, making beverages or brushing teeth.

Customers may choose to:

1. Bring water to a rolling boil for at least 1 minute before consuming
2. Use an alternate source or bottled water

## Need More Information?
